Open Innovation in Software Engineering

OISE
AUG 24 2015
Tallinn, Estonia

Program Chairs
Maleknaz Naeibi,
University of Calgary, Canada
Krzysztof Wnuk
Blekinge Institute of Technology, Sweden

Program Committee
Bram Adams, Polytechnique Montreal, Canada
Sue Black, University college of London, London
Jan Bosch, Chalmers University of Technology, Sweden
Brian Fitzgerald, Lero, Ireland
Slinger Jansen, Utrecht university, Netherlands
Marco Kuhrmann, University of Munich, Germany
Walid Maalej, University of Hamburg, Germany
Jürgen Münch, University of Helsinki, Finland
Dietmar Pfahl, University of Tartu, Estonia
Björn Regnell, Lund University, Sweden
Guenther Ruhe, University of Calgary, Canada
Per Runeson, Lund university, Sweden
Barbara Russo, University of Bozen, Italy
Matthias Stürmer, University of Bern, Switzerland
Christoph Treude, McGill University, Canada

PAPERS
expected (but not limited) to relate to one (or more) of the topics
Open innovation in requirements engineering, architectures and testing,
Open innovation in the process of software development, Crowdsourcing for software product development, Open source software engineering, Social media for software engineering, Outsourcing, Empirical evaluation on the benefits of open innovation in software engineering, Case studies on application of open innovation, Software engineering tools and techniques that foster open innovation, New techniques for leveraging Open innovation inside organizations

Important Dates

Workshop paper submission
May 24th

Workshop submission camera ready
June 29th

June 21st
Notification of papers to authors

June 31st
Workshop’s program publication

For further information regarding paper submission and formats, please refer to the OISE 2015 website at: www.oise2015.com
